

Medieval Life Review

Week 14 • Friday • Show What You Know!

Remember When...

This week you traveled through the Middle Ages! You learned about the feudal system — the ladder of king, lords, knights, and peasants, where everyone traded work for protection.

You followed Alice and Tom through a day in a medieval village: chores at sunrise, pottage for lunch, and games before dark. You visited market day and met the baker, blacksmith, weaver, cobbler, and potter.

Best of all, you discovered that people long ago were a lot like us — they loved their families, worked hard, and made time to play. Now show what you know!

Big Review Questions

1. Draw or write the four levels of the feudal system in order.

2. What did peasants give the lord, and what did they get back?

3. Name two medieval jobs and what they made.

Fill in the Blanks

king peasants knights pottage market blacksmith

1. The _____ was at the top and owned all the land.

2. _____ farmed the land and grew the food.

3. _____ protected the lords' lands.

4. Villagers ate a vegetable soup called _____.

5. People bought, sold, and traded on _____ day.

6. The _____ hammered iron into tools.

True or False

Write T for true or F for false in each circle.

☐ The feudal system organized everyone like a ladder.

☐ Most people in the Middle Ages were kings.

☐ Peasant children helped with chores every day.

☐ The weaver made shoes.

☐ People sometimes traded instead of using coins.

☐ Medieval kids played games like tag.

Who Does What?

Write K (king), N (knight), P (peasant), or B (baker) for each job.

Job	K, N, P, or B?
Rules the whole kingdom	
Bakes bread for the village	
Fights to protect the land	
Plants and harvests crops	

My Medieval Scene

Draw your favorite scene from this week: the feudal ladder, the village, or market day.

Week Summary

This week you learned:

- The feudal system: king → lords → knights → peasants
- Daily life in a medieval village, from chores to play
- Medieval jobs: baker, blacksmith, weaver, cobbler, potter
- People long ago loved the same things we love today

Next week: Amazing inventions of the Middle Ages — clocks, windmills, eyeglasses, and the machine that changed the world: the printing press!

Final Review

I can...	Circle one
Explain the feudal system	YES / NOT YET
Describe a day in a medieval village	YES / NOT YET
Name medieval jobs and what they made	YES / NOT YET
