

1 Warm-up: Inches Review

2-min Warm-up — Measure each line in inches.

inches

Line A _____ inches

Line B _____ inches

2 Meet the Centimeter

Centimeters are another unit for measuring length. A centimeter is **smaller** than an inch — about the width of your pinky finger!

centimeters

This ruler shows 15 centimeters (cm). Each numbered mark is 1 cm.

3 Estimate First, Then Measure

Estimate First! Guess in cm, then measure with the ruler.

Line A

My estimate: _____ cm Measured: _____ cm

Line B

My estimate: _____ cm Measured: _____ cm

Line C

My estimate: _____ cm Measured: _____ cm

centimeters

4 Measure in Centimeters

Use the centimeter ruler to measure each line.

centimeters

1. ____ cm

2. ____ cm

3. ____
cm

4. ____ cm

5 Word Problem

Read carefully. Think about what is happening.

Mia's eraser is 5 cm long. Her glue stick is 9 cm long. If she lays them end to end in a straight line, how long is the line?

Draw or write your thinking: _____

_____ cm
