

1 Warm-up: Coin Values

2-min Warm-up — Coin values from memory!

Quarter = _____¢

Dime = _____¢

Nickel = _____¢

Penny = _____¢

2 Count the Coins (from Week 18)

Remember Week 18's strategy: start with the *biggest* coins, then count on.

Q Q D

\$_____

D D D N P P

\$_____

Q N N P P P

\$_____

Q Q Q D D

\$_____

3 Estimate First! More or Less than \$1?

Estimate First! Before counting exactly, estimate: is each pile MORE or LESS than \$1.00? Circle your estimate, then count exactly.

4 quarters and 3 pennies
Estimate: more / less than \$1.00
Exact: \$ _____

3 dimes, 2 nickels, 4 pennies
Estimate: more / less than \$1.00
Exact: \$ _____

4 Word Problems: Money

Read carefully. Think about what is happening with the money.

Ana has 3 quarters. A sticker costs 60¢. Does she have enough? How much will be left over?
My thinking: _____
Answer: _____

Two ways to make 30¢: Theo uses 3 dimes. Show a DIFFERENT way using at least one nickel.
My thinking: _____
Answer: _____

5 Challenge: Two Ways to Make 47¢

Challenge — Show two different ways to make exactly 47¢.
Q = quarter, D = dime, N = nickel, P = penny. Which way uses the FEWEST coins?

Way 1

Number of coins: _____

Way 2

Number of coins: _____
