

1 Carry the 1

Add ones column. If 10 or more, write ones digit and **carry the 1** to tens.

Don't forget to add the carried 1 to the tens column!

$$\begin{array}{r} 28 \\ + 35 \\ \hline \end{array}$$

$$\begin{array}{r} 47 \\ + 26 \\ \hline \end{array}$$

$$\begin{array}{r} 39 \\ + 44 \\ \hline \end{array}$$

$$\begin{array}{r} 58 \\ + 27 \\ \hline \end{array}$$

2 Estimate First!

Estimate First! Round to tens, estimate, then calculate the actual answer.

28 + 35

Round to tens: $30 + 40 = 70$

Estimate: _____

Actual: _____

47 + 56

Round to tens: $50 + 60 = 110$

Estimate: _____

Actual: _____

69 + 28

Round to tens: $70 + 30 = 100$

Estimate: _____

Actual: _____

78 + 45

Round to tens: $80 + 50 = 130$

Estimate: _____

Actual: _____

3 Step-by-Step Regrouping

Write each step. Show where the carried 1 goes.

28 + 35

Ones: $8 + 5 = 13$

Regroup: $13 = 1 \text{ ten} + 3 \text{ ones}$

Write _____ in
ones place, carry 1 to tens

47 + 26

Ones: $7 + 6 = 13$

Regroup: $13 = 1 \text{ ten} + 3 \text{ ones}$

Write _____ in
ones place, carry 1 to tens

Tens: $2 + 3 + 1$ (carried) = _____

Total: _____

Tens: $4 + 2 + 1$ (carried) = _____

Total: _____

4 Try Different Strategies

Use ANY strategy you prefer. Try a different one for each problem.

$$78 + 19 = \underline{\hspace{2cm}}$$

Strategy I used: _____

$$56 + 38 = \underline{\hspace{2cm}}$$

Strategy I used: _____

$$69 + 27 = \underline{\hspace{2cm}}$$

Strategy I used: _____

$$87 + 16 = \underline{\hspace{2cm}}$$

Strategy I used: _____

5 Number Talk: Connected Sums

Number Talk — Explain WITHOUT calculating.

If $39 + 24 = 63$, what is $39 + 25$?

My thinking: _____

If $47 + 26 = 73$, what is $57 + 26$?

My thinking: _____
